6 The bylaws are based on Govt's model bylaws and are simple enough. The power of sanctioning applications for private house connections is vested in the Pt or V Pt in rule 3. But the same rule reserves the interference of the Govt when special conditions have to be imposed in individual cases. This means is somewhat difficult to reconcile if each individual case has to go up before the Govt there is no meaning in vesting any authority in the Presidt or Vice Presidt. Considering that our water supply systems in mofussil towns are still in their final stages, it is safer that such cases should go before the Govt and that the power of granting private connections should rest in them only.

7. The rules if approved may also be sanctioned by the Govt advocate

12. The bye laws proposed appear to require a few more or less verbal alterations which are indicated below

1. The heading of every bye law should appear in the margin and not after the number - This alteration has to be made with respect to all the bye laws in the draft.

2. It appears to be unnecessary to use the words "President or Vice-President" - Any one of them is enough. If "Vice-President" is used - it is needless to use "President" Or if "President" is used - as the work is usually done by Vice-President under his instructions - the object in view is fulfilled.

3. In bye law (2) the proviso as it stands appears to be re-

But I think the proviso should be retained with the words "Municipal Council" instead of the words "P-t or Vice-Pt." as the ultimate power of giving or refusing such requests vests in the Municipal Council.

4. In bye-law 3 (a) -

(a) has to be omitted What is now given as (a) is the preliminary portion & it is only the conditions below it that have to be numbered a, b etc.

The wording of this preliminary clause makes the procedure a bit complicated. What is evidently intended is that the Mc Council should reserve the right of laying down Special conditions in Some Special Cases, in addition to the general conditions prescribed. This object is best secured by Substituting the word "any" for "Each" & the words "by the Mc Council" in

As (a) has to be omitted (b) will have to be changed to (a) & so on
